

FRED MILL  
... Acts as Chairman

### Business Group Visits National Supply Co. Today

Seventy five members of the Controllers Institute of America, Los Angeles Control, will tour the Torrance plant of the National Supply company today, at the Controllers annual plant visitation.

The tour will begin at 5:30 p.m. and last until 7 o'clock. A dinner meeting will follow at the Falos Verdes Country Club with Fred W. Mill, division controller and assistant secretary of the Torrance plant, as chairman. The plant visitation was arranged by John D. Spalburg, works manager of National Supply.

The Controllers Institute, established in 1931, is a professional and technical organization, with a membership of more than 5200 controllers and financial officers of the leading business concerns in the United States, Canada and Puerto Rico.

The Los Angeles Control is a branch of the national organization with a membership composed of officials and financial officers from the leading business concerns in Southern California. Types of businesses represented in the Control include the steel, motion pictures, insurance, banking, oil, department store, aircraft, rubber, grocery, glass, packing, and building industries.

Prior to the dinner at the Country Club, the group will be entertained at a Social hour, from 7:15 to 7:45 p.m., and will listen to the music of accordionist Nancy Kinzell.

### Edison Strikers Win 5 Per Cent Wage Increase

The Southern California Edison Company has increased the wages of employees who are members of the bargaining unit represented by Local 47, IBEW-AFL, by 5 per cent or \$15 per month, whichever is greater for each individual, retroactive to January 1. Some members of this union have been on strike since March 10.

The same retroactive pay increase was granted to all other employees of the Company March 4. Leaders of the striking union refused this wage increase during bargaining sessions with the company. But so many of the members of the union bargaining unit have either stayed on the job during the strike or returned to work that it was only fair to raise their wage scale to that enjoyed by other employees, company officials said.

Employees on strike will receive retroactive payments as soon as possible for work performed from the first of the year to the time they went on strike. Since the new wage scale is now universal throughout the company, striking employees who return to work will be paid at the new rate.
